THOURS VINING STOCKS

NEW COMBINE IN IRON FIELD

Two Companies Are Now Busily Engaged in Patenting Claims.

COLUMBUS CON. DOES WELL

COL. WALL GETS INJUNCTION AGAINST UTAH COPPER.

Cincinnati men are said to be the chief factors in the latter corporation, though the relations of the two companies are more than ordinarily friendly, as shown in the fact that F. E. Kennedy of Duluth is the field representative and legal agent of both.

"I know this much," said a man well posted on the movements of the new combinations yesterday, "and that is that the Duluth crowd is composed of men who have had a great deal of experience in the iron mining business.

fact makes it plain to me that the op-erations of the two companies now ac-quiring ground and patenting it, are Silver Top shafts. being carried on for the purpose of at least having something to sell to the steel trust when the right time arrives. It may be, of course, that the steel trust is really behind the whole busi-ness as it is, for I have no doubt that t is the intention to get into the Utah ield sooner or later. It seems the most reasonable, however, that the compa-nies mentioned are working indepen-dently, but with a knowledge that the properties now being gathered up can be sold whenever it is desirable to make an offer of the properties."

The groups of claims which go to make up the holdings of the new com-panies are said to skirt the holdings of make up the holdings of the new companies are said to skirt the holdings of the Milner, Deer & Lerch, Campbell and other properties in the Pinto Iron and Iron Springs districts, as well as the territory of the Colorado Fuel & foot mark below the tunnel. It is going the territory of the Colorado Fuel & Iron company, and the impression prevails that the Minnesota and Cincin-

BACK FROM NEVADA.

Tells of Bullion District.

from another flying trip to camp. He reports that the two cars of ore which it was at first intended to bill to the smelters here had been diverted and sent to the Selby works at San Francisco. This was decided upon for the purpose of determining to which point it would be best for the company to

ship to.

During his trip Manager Delmas installed A. H. Anderson of Goldfield as general superintendent of the properties, Mr. Anderson is a most competent mining engineer and metallurgist, and the company feels that it has been fortunate in securing his services. He was in the employ of the has been fortunate in securing his services. He was in the employ of the Schwab' syndicate previous to accepting the superintendency of the Gold Quartz company's mines.

While preparations are being made to sink shafts on the gold-bearing and

copper ledges in the company's ground and while new buildings are going up for the accommodation of the mine for the accommodation of the mine force, a number of men are kept at work quarrying ore from the surface cuts for shipment. This ore carries all the way from \$30 to \$700 per ton, and the expectation is that thousands of tons will be marketed from the sur-

face workings.

Mr. Delmas states that the Reliance company, which owns adjoining properties to the Gold Quartz, is pushing work, and when he left camp ore was being sacked for shipment that would being sacked for snipment that would carry high values in copper, silver and gold. Work is being done on other properties in the district, and the outlook is bright for the building of a bigcamp in these new diggings, which are distant a few miles only from the old stant a few miles only from the old camp of Bullion.

MILL WILL BE BUILT.

Matter Is Practically Decided by DIrectors of Sunrise Company.

The directors of the Sunrise Gold Mining company met Monday night and discussed the new mill proposition from the ground up. As a result, said one of the directors yesterday, it was practically decided to go ahead and install a plant. Manager Adolph Lochwitz, it is expected, will leave for camp during the next few days with a surveyor for the purpose of establishing the grades and making the ground ready for the excavations. The grading will be hurried through and the foundation walls will go in at the earliest possible moment so as to escape the frosts that will soon be here.

With a modest-sized mill in operation there is no question but what the

tion there is no question but what the proposition can be made self-sustaining, and within another twelve months the mill should be paid for and a good treasury should begin to accumulate.

COUNTRY NORTH OF VEGAS.

Superintendent of Arrow Property Brings Good News From Camp.

Arrow company's properties, fifty-five miles northwest of Las Vegas, came up from the south yesterday morning with samples of rich silver-lead-gold ore that has just been encountered in the tunnel workings. It is splendid looking ore, and the assays that will be out today are expected to show up well. The workings have shown fine ore from the beginning of developments at the mine, but the samples brought up are heavily charged with chlorides and sulphurets, and in that respect differ some from the ore that has been passed through. Mr. Tarbett reports a full face of the character of rock brought in. H. H. Tarbett, superintendent of the

Lake Route would build a branch line from Las Vegas to Tonopah, Tarbett says, there has been a great deal of prospecting along what it is presumed will be the line followed by the road. and in some instances, at least, sub-stantial results are being attained. He says everybody in the southern country is in high spirits over the railroad com-pany's determination to build north and west from Las Vegas, and he believes that it will result in more than one new district being opened and the building up of some of the places that are now but little thought of or mentioned.

TONOPAH MILL ORDERED.

Company Will Build One-Hundred Stamp Plant at Once.

Two new combinations have recently invaded the iron fields of Iron county and, as a result, more than thirty claims are now being developed and surveyed with the intention of having them patiented. The Duluth & Utah company, at the head of which is N. J. Upham and a Mr. McCahill of Duluth is now patenting seventeen claims, and it is understood that the company is reaching out for more.

Another company, the Cincinnati, Utah & Wyoming, is proving up on fourteen or more claims and the management, it is said, is still prospecting with a view to adding to its holdings. Cincinnati men are said to be the chief factors in the latter corporation, though the relations of the two companies are more than ordinarily friendly, as shown Vice President Charles R. Miller and

men who have had a great deal of experience in the iron mining business. The company has ordered four West-Inghouse electric hoists, one of 150 have, in years gone by, turned over a great deal of property to interests now an integral part of the steel trust. That

COLUMBUS CON. DOING WELL.

Sinking for Another Level Is Now in Progress at Mine.

Manager Tony Jacobson of the Columbus Consolidated is pleased with the manner in which the lower levels of that property are responding to development. In addition to what the millidiast month, the mine supplied more than \$46,000 worth of crude ore from the 100-foot level below the tunnel

down in solid ore, and, contrary to all the predictions of the wiseacres, little natl combinations know pretty well water is being encountered. As a matwhat they are about; that they know, also, that the day is not far off when the big concerns will begin doing things in Iron country. than sixty gallons a minute, while the pumping facilities are equal to 600 gal-

lons per minute. ouse will be ready for occupancy Manager Delmas of the Gold Quartz the 15th, and when it is opened, Man ager Jacobson says, he will have or Quartz company's properties in the old Bullion district, Lander county, Nevada, returned yesterday morning from another flying trip to build a set of new ore bins before will for any kind of weather that may !

SHIPMENTS FROM TONOPAH.

Over 3,000 Tons of Ore Forward From Goldfield Region in a Week

The ore shipments over the Tonopa railroad last week aggregated 3,62 tons, of which 1,357 tons came from Goldfield, the latter being the tots shipped from the 20th to 29th of Ser tember, inclusive. The shipments a

divided as follows: From Tonopah—Tonopah compar 755 tons: Tonopah Extension company S85 tons; Montana-Tonopah, 135 tons; Belmont, 95 tons; Midway, 3f tons; North Star, 30 tons; Tonopah Gold

Mountain, 18 tons, From Goldfield-Columbia Sampling Ore company, 1,357 tons. From Reveille—Southwestern Nevada Mines company, 30 tons.

From the Nevada-Superior.

Ford W. Correll of the Nevada-Su perior company's official household re-turned from a trip to the mine and on to California, yesterday morning. He will remain here a week or so and then return to his home at Rockford, Ill. He reports that the new hoisting and numping plant at the property is workpumping plant at the property is working like a charm, and that Superintendent George Wilson is again pounding the shaft down. Since the draining of the shaft it has developed that there is little water in the country, and no diffi-culty is going to be experienced in gain-ing great depth. Good ore is coming from the bottom and the future of the property looks exceedingly bright.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$98,800, as follows: Sil-ver, lead, gold and copper ores, \$56,200; base bullion, \$42,600.

Metal Markets.

Silver, 614c per ounce. Copper (casting), 154c per pound. Lead, in ore, \$2.50; New York, \$4.85 per 60 pounds.

Utah Stocks in Boston.

James A. Pollock & Co., bankers and brokers, yesterday received over their private wire from Paine, Webber & Co., one of their Boston correspondents, the record of sales of Utah stocks on the Boston market, with range and closing

Boston market, with range and closing quotations:
Boston, Oct. 3.—North Butte was the feature again today, jumping quickly to 58½ and closing within a point of that price. Range, which has been inactive for a long time, was taken in haad and quickly moved up to 73½. The public interest in this stock is very large and we expect to see a good movement in it now that a start has been made. There seems to be considerable liquidation in Atlantic at present, but this seems to be due more to profit taking than any unfavorable results at the property. Quotations:

MINING STOCK EXCHANGE.

Market Was Narrow and Prices Weakened Toward the Close.

face of the character of rock brought in.

Some fifteen miles west of the Arrow company's ground some sensational strikes have recently been made, and some of the samples seen by Mr. Tarbett were literally plastered over with free gold.

Since the announcement that the Salt

were generally trimmed toward the close. Daly was sold at 75c to 72½c per share; Daly-Judge was strong at 36 and Victoria fell back to 31.90. Lower Mammoth was started at 33c and sold back to 30; New York opened at 25c and lost 1c, while Star Consolidated dropped from 18c to 17c and then moved up again to the opening price. Beck Tunnel sold 400 at 12c and Butler-Liberal went at 6½c.

Following is the list of final quotations and record of sales made:

Mining Notes.

The B. W. & H. company is in the market with a carload of high-grade ore from its Marysvale property.

Northern Light leasers are in the market with a car of rich ore from that old Lion hill bonanza of bygone days. Three cars of ore from Alta, two from Bingham and two from Tintic were re-ported at the Pioneer sampler yesterday morning.

The Taylor & Brunton sampler was yesterday in receipt of eight cars of ore from Tintic, one from Bingham, one from Mercur, one from Marysvale and one from headens. Mrs. Margaret Shay of Eureka is patenting three claims in the Tintic district, north of the R. G. W. property. H. W. Horne has been at camp making the patent surveys during the past week.

E. W. White, president of the Bingham Consolidated company, who has been looking after matters on this end of the line for the past two weeks or more, pulled out for Boston again Monday night.

night.

but has not yet reached bedrock.

A Boston special to The Herald says: Much United States Mining stock has found its way abroad during the past week. It has leaked out that the Rothschilds of London took in 10,009 shares of treasury stock, and it now looks as if they were adding to their holdings.

Accompanied by a number of eastern shareholders in the company. C. H. Doolitte, in charge of the Utah & Eastern company's mines and smelter, in Washington county, left for camp last night. After leaving the mine Mr. Doolittle will go to Pioche, where he has business in court.

All of the property of the Chainman Mining company, at Ely, Nev., was bought in at sheriff's sale the other day by the Salt Lake Hardware company to satisfy a claim of \$15,000. There is no question but what the property will be redeemed, as it is worth a great many times that amount.

Tonopah Miner: Thomas J. Lynch, who

times that amount.

Tonopah Miner: Thomas J. Lynch, who visited the Nevada-Alpine this week, reports that an entirely new ore body has been opened up in that property at a depth of 250 feet, and although only eighteen inches wide at present, it yields the splendid assays of 55 per cent lead and 270 ounces of silver to the ton. The last returns received from the smelter for a carload of ore from the other body gave values of \$150 a ton net.

Mason Valley Times: Development work values of \$150 a ton net.

Mason Valley Times: Development work is still being actively carried on on the Dyer group of copper mines by the Mason Valley Copper company. Wherever work is being done ore of good character and in quantity is showing up, and the Salt Lake people who have the property under bond are exceedingly well pleased with the outlook, so much so that there is but little doubt about the property being taken over and the stipulated price paid for the group when the bond expires.

Bent Her Double.

Utah, Idaho, Wyoming and Nevada. Offices in Progress Building, Salt Lake City.

"I knew no one for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at Z. C. M I drug dept.;
